

SUZHOU RAINBOW FASHION CO.,LTD,

SUZHOU RAINBOW

SINCE 2016, CHINA

RAINBOW KNITWEAR MANUFACTURER

SINCE 2016,
CHINA

SUZHOU RAINBOW

Rainbow Fashion is dedicated to the manufacturing of high-end flat knitting products. Since its establishment, the company has aimed to create a green factory. Through years of diligent effort, we have established close collaborations with many renowned designer brands worldwide, such as France's Coperni, the UK's A Cold Wall, and the USA's Aya Muse, Chinese mid-to-high-end brands, including Marius, X-bonic, and Kailash, among others.

Additionally, we have formed strong partnerships with top-tier raw material suppliers, including Top Line, Consinee, Xinao, UPW, and Loro Piana.

CORE BUSINESS

Rainbow Fashion's business is broad and deep, primarily covering the following areas:

- 1. Product Development:** Focused on developing new flat knitting technologies, We launch hundreds of new technologies and models each year, and develop over 1,000 new styles annually, maintaining our position at the forefront of technological innovation.
- 2. Manufacturing:** Specialising in the production of high-end flat knitting products, our company utilizes state-of-the-art, fully fashioned, seamless knitting technology to guarantee the distinctiveness and exceptional quality of our products. We possess an annual production capacity of 300,000 units of knitwear.
- 3. Market Collaboration:** We engage in deep collaborations with globally renowned designer brands and top raw material suppliers, providing high-quality knitted products to meet diverse market demands.

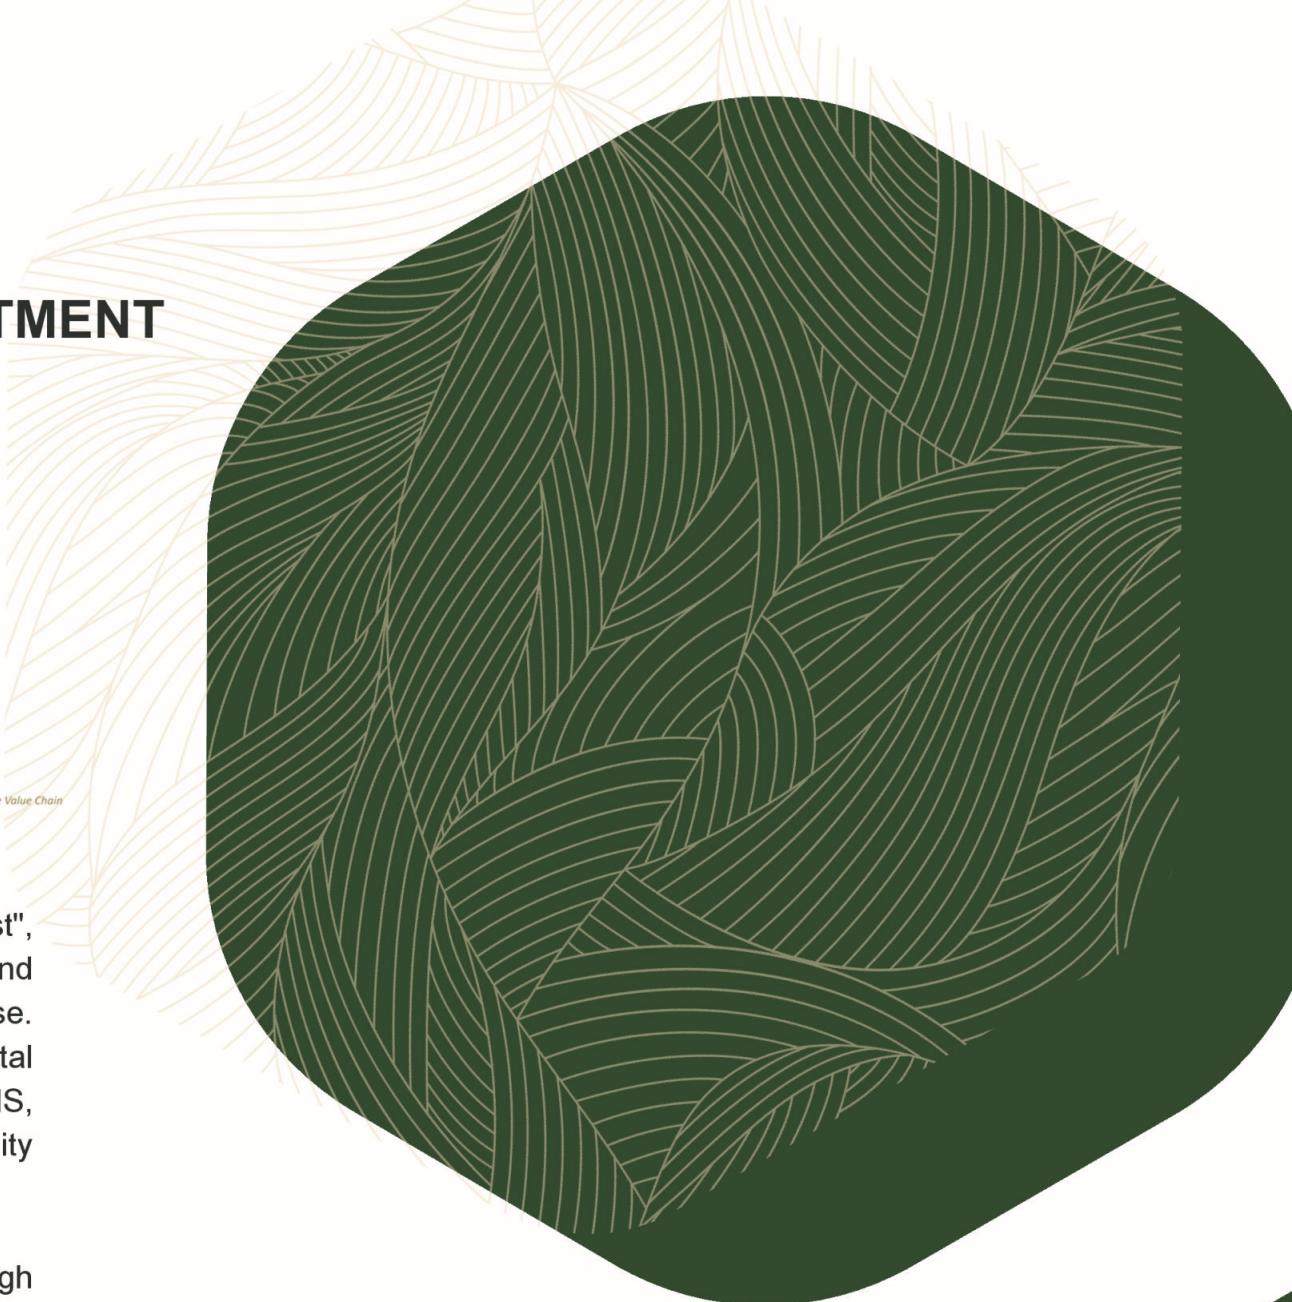

CERTIFICATIONS AND COMMITMENT

We consistently uphold the principle of "quality first", offering a lifetime guarantee on all our products and guaranteeing a 99% pass rate on factory release. **Rainbow Fashion** has achieved numerous environmental textile certifications, including GOTS, OCS, RWS, RMS, RAS, GRS and SFA, as well as social responsibility certifications such as the EU's BSCI and FWF.

These certifications underline our commitment to high quality, environmental protection and social responsibility.

DIGITAL TRANSFORMATION AND TECHNOLOGICAL UPGRADES

The year 2024 marks a significant milestone for **Rainbow Fashion** as we embark on a journey of intelligent digital transformation. We have invested in advanced Style 3D design and knitting software systems, establishing our Digital Sampling Group. It has also fully realized the goal of digitizing the first round of samples, which has greatly improved development efficiency and saved development costs.

Simultaneously, we have upgraded our internal management systems, fully integrating the Feishu application engine. This upgrade has enabled us to build our own internal management and collaboration system, significantly enhancing departmental communication and work efficiency.

CUSTOMER SERVICES

At Rainbow Fashion, we pride ourselves on offering exceptional customer services that set us apart:

- **No Minimum Order Quantity:** We accept orders of any size, providing flexibility to our customers, meeting the fast-paced needs of our clients.
- **Flexible Delivery Terms:** We offer a range of delivery terms, including FOB, CIF, DDP, and DDU, to suit our customers' logistics requirements.
- **Comprehensive Services:** We provide both OEM and ODM services, offering end-to-end solutions from design to production to transportation.

Order factory passing rate of 99%

RAPID RESPONSE :

For sample orders, the lead time is **7–10** days; for initial lot orders, it is **20–60** days; and for repeat orders, it is **15–20** days.

EQUIPMENT CAPACITY

Rainbow Fashion offers SHIMA SEIKI WHOLEGARMENT SEAMLESS MACHINES with 6sets 8L gauge, 20sets 15L gauge, and 30sets 18L gauge,with annual production capacity of 300,000 pieces of knitwear.

WELFARE PROJECT

Rainbow Fashion has set up an internal charity, **Rainbow Charity**, focused on providing warmth and care. The Warm Winter Project, its core, uses leftover yarn from orders to make hats, scarves and gloves. These are donated to schools in underprivileged western regions like Yunnan, Sichuan, etc., reaching over ten schools and benefiting thousands of kids.

The Warm Winter Project, inspired by the founder's dedication to aiding children's education in impoverished areas, emerged from a home visit where some kids suffered frostbite due to lack of warm clothes. Since then, it has provided essential winter clothing.

Funding comes from the sale of **Rainbow Fashion's** sample garments. Staff organize fundraising activities on weekends and holidays, with all proceeds going to the **Rainbow Charity** to help more children.

VISION FOR THE FUTURE

Rainbow Fashion aspires to be the leader in 3D flat knitting technology, creating greater value for our customers through ongoing technological innovation and excellent service. We aim to expand our international market presence, enhance the global influence of our brand, and achieve sustainable development, crafting an even more brilliant future.

Rainbow Fashion will proceed steadily, continually reaching new heights and providing unique, high-quality flat knitting products to customers worldwide. We firmly believe that the perfect combination of technology and fashion will bring more beauty and surprise to the world.
